## 1. Introduction

The purpose of this documentation is to define how information in SEPA Direct Debit Messages should be structured for the exchange between the Message sender and Nordea.

This Message Implementation Guide complies with the international definitions for content and use of an ISO20022 camt.029.001.03 Resolution Of Investigation.

The files sent to Nordea must be in UTF-8 format, using only the characters included in ISO-8859-1.

This MIG does not include any technical issues such as security, retransmissions, or duplicates.
