1. Introduction

This Message Implementation Guideline (MIG) is prepared on behalf of Nordea Group (hereinafter also referred to as “Nordea”).

The purpose of this documentation is to define how information in mandate Messages should be structured for the exchange between the Message sender and Nordea.

The terms and definitions used in this document are defined in a separate document, “Glossary for Corporate eGateway”, which can be found on the Nordea Group’s homepage: www.nordea.com/eGateway.

This Message Implementation Guide complies with the international definitions for content and use of an ISO20022 pain.009.001.03 Mandate Initiation Request. Common Global Implementation (CGI) has not specified the recommendations for Mandate Initiation request version 3, only version 1.

The files sent to Nordea must be in UTF-8 format, using only the characters included in ISO-8859-1.

This MIG does not include any technical issues such as security, retransmissions, or duplicates.

For more information about Direct debit services, please read the document “Functional specification for Nordea Direct Debits (NDD)”.

Additional information about account number structure, and usage, can be found in the document “Accounts in Nordea.doc” Both documents can be found from Nordea eGateway web page.

For further information on ISO 20022 definitions on pain.009.001.03 can be found from ISO20022 homepage from document “ISO20022_PaymentsMandates_MDR1.pdf”, under the headline “Third version of the Payments Mandates messages”.

Note: Nets has during 2020 sold their account-to-account based services to Mastercard.

2. Scope

The MandateInitiationRequest message is sent by the initiating party to the forwarding agent or creditor's agent. It is used to set-up the instruction that allows the debtor agent to accept instructions from the creditor, through the creditor agent, to debit the account of the debtor.

The MandateInitiationRequest is also used to forward the debtor initiated mandate to the creditor for acceptance. In Corporate eGateway this is only in Autogiro through Bankgiro service. Guidelines are marked in Nordea comment column with text “From Nordea to customer:”.

3. Document references

This chapter contains references to documents relevant for this MIG:

1. ISO 20022, Payments – Maintenance 2013, Approved by the Payments SEG in January 2013, Message Definition Report, Payments Mandates May 2013, pain.009.001.03, MandateInitiationRequestV03

4. Services

Services for which this MIG is applicable

1. **Denmark**
 - Betalingsservice (BS)
 - LeverandørService (LS)
2. **Sweden**
 - Autogiro through Bankgiro

Note!

1. **MandateInitiationRequest message may contain mandates for one creditor and one service.**
2. **MandateInitiationRequest to service provider is not supported for Avtalegiro Norway.**

5. Danish Leverandørservice – Stop for file based Mandate initiation

As per September 2019 Mastercard has terminated the option for new Creditors to register mandates by file transfer using pain.009, MandateInitiationRequest.

New Creditors must from this date ask Debtor to register a mandate manually. Information concerning Leverandørservice is kept in this MIG, but can only be used by new customers in Nordea, having an existing Leverandørservice Creditor number.

More information can be found at Leverandørservice website:

<https://www.mastercardpaymentservices.com/denmark/leverand%C3%B8rservice>.

6. Use of references and identifications

Reference type	ISO index	Description
<MsgId>	2.4.1.1	Unique identification of the pain.009 message. Will be returned in pain.002 (2.1) message from Nordea. Used by Nordea for duplicate control.
<MndtReqId>	2.4.2.2	Mandate Request Identification - Unique identification for the new mandate request message. Mandatory in schema, but not stored not processed by Nordea. "NOT-PROVIDED" can be used.
Identification of the Creditor		
<CdtrSchmeld><Id><OrgId><Othr><Id>	6.1.6.1.3.1.2.1	Denmark Creditor identification in BS or LS
<CdtrAcct><Id><Othr><Id>	6.1.2.1.2.1	Sweden Bankgiro number must be used
Identification of the Debtor		
<CdtrSchmeld><Id><OrgId><Othr><Id>	6.1.6.1.3.1.2.1	Denmark Debtor group number in BS
<Ddtr><Id><OrgId><Othr><Id>	6.1.6.1.3.1.2.1	Denmark: Two mandatory Ids for an organisation -The debtor's identification with creditor is maximum 15 chr. -Debtor's SE-number maximum 8 chr.
<Ddtr><Id><Prvid><Othr><Id>	6.1.6.1.3.2.2.1	Denmark: Two mandatory Ids for private persons -The debtor's identification with creditor is maximum 15 chr. -Debtor's CPR-number maximum 10 digits
<Ddtr><Id><OrgId><Othr><Id>	6.1.6.1.3.1.2.1	Sweden -The debtor's payor number must be maximum 16 digits -Debtor's organisation number is required, if debtor's payor number is not BG-number.
<Ddtr><Id><Prvid><Othr><Id>	6.1.6.1.3.2.2.1	Sweden -The debtor's payor number must be maximum 16 digits - Debtor's personal identity number is required for new authorisations for private persons.

7. Guideline
