1. Introduction

The purpose of this documentation is to define how information in payment Messages should be structured for the exchange between the Message sender and Nordea.

The terms and definitions used in this document are defined in a separate document, "Glossary for Corporate eGateway", which can be found on the Nordea Group's homepage: www.nordea.com/eGateway.

This Message Implementation Guide complies with the international definitions for content and use of an ISO20022 camt.055.001.01 Customer Payment Cancellation Request.

The files sent to Nordea must be in UTF-8 format, using only the characters included in ISO-8859-1.

This MIG does not include any technical issues such as security, retransmissions, or duplicates.

For more information about Direct debit services, please read the document "Functional specification for Nordea Direct Debits (NDD)".

For further information on ISO 20022 definitions on camt.055.001.01 can be found from ISO20022 homepage from document "EnI_Maintenance_2009.pdf", under the headline "Second version of the Exceptions & Investigations messages".

2. Scope

The Customer Payment Cancellation Request message is sent by a case creator/case assigner to a case assignee. This message is used to request the cancellation of an original direct debit instruction.
